

The Pathfinder is a 'quick-response', flexible vehicle. Equipped with full air conditioning, Pathfinder provides a comfortable and spacious working environment for guests, staff and delegates. The vehicle's versatility makes it ideal for gaining access to smaller and more restrictive site locations. Pathfinder boasts large areas for internal and external graphics, making sure that your brand and key message really make an impact with your target audience. The Pathfinder vehicle has been designed to simulate an office environment, and with a seating capacity for up to 15 people, it is an ideal and functional showcase for mobile training classes, presentations and meetings.
